

## **Part A**

### **Literature:**

Fudenberg & Tirole (1991). *Game Theory*. Cambridge: MIT Press.

Gibbons (1992). *A Primer in Game Theory*. New York: Wileys.

Mas-Colell, Whinston & Green (1995). *Microeconomic Theory*. New York: Oxford University Press.

### **Exercises:**

1. Please read Section 13.C in Mas-Colell, Whinston and Green.
2. Solve Exercise 4.4 in Gibbons.
3. Solve Exercise 8.10 in Fudenberg and Tirole.
4. Solve Exercise 8.3 in Fudenberg and Tirole. (Part (c) is a bit harder. It suffices if you show that, depending on parameter values, a “babbling” and a fully revealing equilibrium can exist.)
